ORDER DENYING PETITION

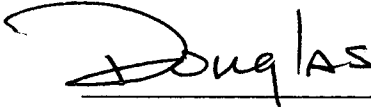

This original petition for a writ of mandamus challenges a district court order denying petitioner's motion to sever her trial from that of her codefendant. Preliminarily, we note that the petition is not in compliance with the procedural requirements of NRAP 21(a). In particular, the petition does not include copies of the order challenged by the petition or the "parts of the record which may be essential to an understanding of the matters set forth in the petition," such as the motion and any opposition filed below and the transcript of the hearing on the motion. NRAP 21(a). Despite these deficiencies, we have considered the

petition on file herein. We are not satisfied that this court's intervention by way of extraordinary writ is warranted at this time. Accordingly, we

ORDER the petition DENIED.¹
