ORDER DENYING PETITION

This is a proper person petition for a writ of mandamus. Petitioner seeks an order directing the district court to consider and resolve his motion for transcripts at state expense and motion for withdrawal of attorney of record so that petitioner may file a federal petition for a writ of habeas corpus challenging his approximately 17-year-old conviction. Petitioner further seeks an order directing the clerk of the district court to inform him of the status of the motions. Finally, it appears that petitioner requests this court to consider his motions in the first instance. We have considered the documents submitted in this matter, and we conclude that this court's intervention is not warranted at

this time.¹ We are confident that the district court will resolve all pending matters as expeditiously as the court's calendar permits. Accordingly, we

ORDER the petition DENIED.
