

appeal, we hereby dismiss this appeal as abandoned. See NRAP 3(a) (while failure to take any steps other than the filing of a notice of appeal does not affect the appeal's validity, it may be grounds for dismissal of the appeal).²

It is so ORDERED.

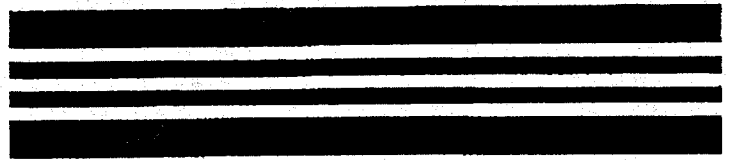

Maupin, J.

Shawing, J.

Becker, J.

cc: Hon. William O. Voy, District Judge
Hon. Michael A. Cherry, District Judge
Israel L. Kunin
Marshall S. Willick
Vicki Carlton
Peggie A. Yacek
Clark County Clerk

² The clerk of this court shall return to the Honorable Michael Cherry, appellant's former counsel, the filing fee transmitted with the abbreviated record.

Code 39

Code 39, also referred to as 3 of 9 Code, is an alphanumeric, self-checking, variable length code that uses five black bars and four spaces to define a character. Three of the elements are wide and six are narrow. Note that the extended version of Code 39 (full 128 character set) is not supported.

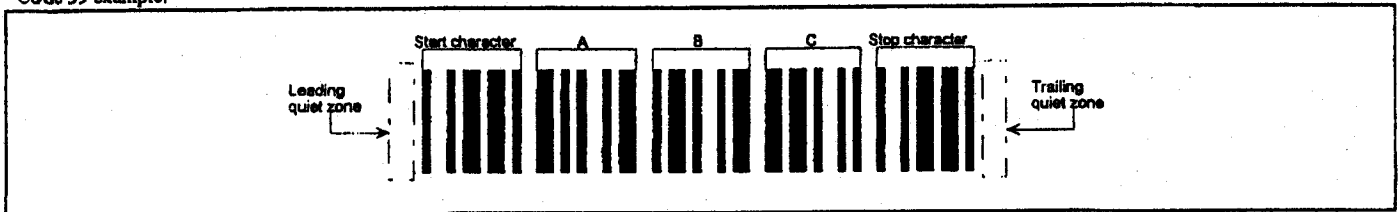

Code 39 supports the following characters:

- 26 uppercase letters.
- Ten digits.
- Seven special characters (- . \$ / + % and a space).
- Start/stop character, which is depicted as an asterisk (*).

A Code 39 bar code symbol consists of the following elements:

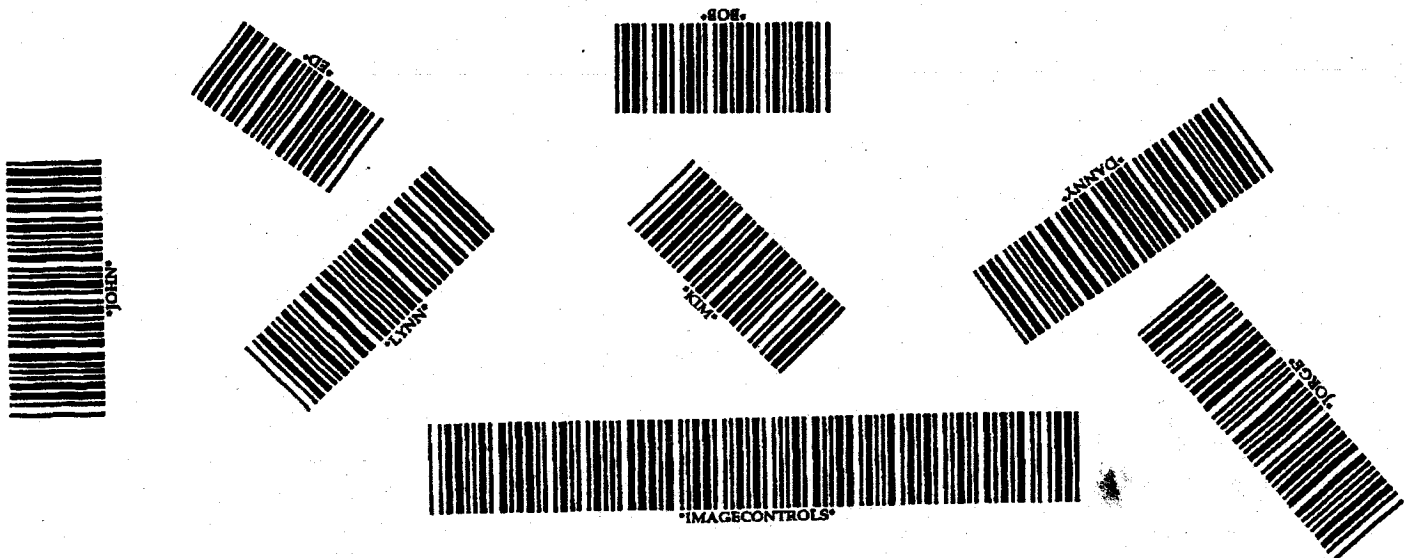

- Leading quiet zone.
- Start character.
- Data characters, with characters separated by an inter-character gap.
- Optional check character.
- Stop character.
- Trailing quiet zone.

Code 39 example:

Settings:

- Enable Barcode recognition
- Type (In Use) = Code 39 (3 of 9)
- Bar size Height = 0.50
- Bar size Width = 0.015
- Enable 2 to 1 Ratio
- Skew = Heavy
- Density = Light
- Search Direction = All (0, 90, 180, 270)
- Quality = Normal
- Minimum Characters in Barcode = 0
- Maximum Barcodes Per Page = 8
- Maximum Barcodes Per Line = 8

Note: Barcode settings have been optimized for 200 DPI.
