ORDER DENYING PETITION

This proper person petition for a writ of mandamus seeks an order of this court compelling the district court to resolve a petition for a writ of mandamus that petitioner filed in the district court.

Petitioner claims that on August 6, 1999, he filed a writ petition in the respondent district court in case number 99-A-400718-C. The district court minutes reflect that on August 16, 1999, the party apparently named as a defendant in the district court proceeding filed a motion to dismiss the district court action. The minutes further reflect, however, the district court has taken no action on the matter. Petitioner seeks a writ from this court directing the district court to make a decision on his petition.

We are not persuaded that this court's intervention by way of extraordinary writ is warranted at this time. We are confident that the district court recognizes that the parties below are entitled to a formal written resolution of the petition and that the district court will issue a written order finally resolving the matter as expeditiously as its calendar will permit. Accordingly, we deny this petition.

It is so ORDERED.
