*ORDER DENYING PETITION*

This original petition for a writ of mandamus challenges a district court order denying a petition for a writ of habeas corpus in which petitioner sought to dismiss an indictment based on deficiencies in the grand jury proceedings. Petitioner has not provided this court with an appendix that includes such documents as the habeas petition filed below, the State's return, a transcript of the hearing on the habeas petition, and the district court's order denying the petition, which appears to have been filed below on June 24, 2016. See NRAP 21(4) (providing that "[t]he appendix shall include a copy of any order or opinion, parts of the record before the respondent judge . . . or any other original document that may be essential to understand the matters set forth in the petition"). Because these documents are necessary for our review of the petition, we

ORDER the petition DENIED.
