ORDER DISMISSING APPEAL

Appellant purports to appeal in proper person from an order of the district court entered on November 8, 2000. Our review of this appeal reveals a jurisdictional defect. A thorough and complete review of the documents before this court indicates that the district court did not enter any order, oral or written, on November 8, 2000. In fact, the documents before this court indicate that district court case number C97873 was closed on April 22, 1999. Appellant failed to properly designate an appealable order contrary to NRAP 3(c), thus, we

ORDER this appeal dismissed.
