ORDER DENYING PETITION

FOR WRIT OF MANDAMUS/PROHIBITION

This original petition for a writ of mandamus or prohibition challenges orders of the district court (1) denying petitioner's pretrial petition for a writ of habeas corpus, and (2) granting the State's motion in limine.

NRAP 21(a) requires a petition to present sufficient documentation necessary to this court's complete understanding of the matters set forth in the petition. In the instant case, the petition contains insufficient documentation and fails to comply with NRAP 21(a). The petition also fails to comply with NRAP 9 by not including the relevant transcripts.¹ Nevertheless, we have reviewed the documents submitted in this matter and conclude

¹Petitioner submitted four videotapes in support of her petition; this court will not consider videotapes in lieu of transcripts.

that our intervention by way of extraordinary writ is not warranted at this time.² Accordingly, we deny this petition.

It is so ORDERED.³
