*ORDER DISMISSING APPEAL*

This is an appeal from an "Order Denying Plaintiff's Request for Leave to Submit Opposition, Hear Argument on Motion, and Motion to Reconsider Order Granting Defendant's Motion to Dismiss." Eighth Judicial District Court, Clark County; Mark R. Denton, Judge.

Because the order appealed from did not appear to be substantively appealable, this court entered an order directing appellants to show cause why the appeal should not be dismissed for lack of jurisdiction. Appellant has responded and concedes the order is not a final appealable order, but asks this court to suspend the proceedings for 90 days to permit collateral action to play out in a different district court matter in the hopes that ultimately the matters can be consolidated. The appellate rules do not anticipate that parties should file a premature notice of appeal or that a premature notice of appeal should linger indefinitely on this court's docket while the parties and the district court continue to resolve

outstanding motions. NRAP 4(a)(6). This court lacks jurisdiction. Appellant may file an appeal from a final appealable order. This court
