ORDER DISMISSING PETITION FOR WRIT OF PROHIBITION

On December 19, 2022, petitioner filed this emergency petition for a writ of prohibition seeking to preclude the Nevada Board of Pardons Commissioners from considering agenda item VI at its December 20, 2022, meeting without commutation applications and adequate notice to victims. Later that same day, the First Judicial District Court entered a writ of prohibition in a separate case instructing the Pardons Board to remove item VI from its agenda and to refrain from action on that item. *State v. Nevada Board of Pardons*, No. 22 EW 00047 1B (Dec. 19, 2022) (Writ of Prohibition).

After the Pardons Board's meeting concluded with no action taken on item VI, we entered an order to show cause why this writ petition should not be dismissed as moot, as it appeared that this court could grant no effective relief. *See Univ. & Cmty. Coll. Sys. of Nev. v. Nevadans for Sound Gov't*, 120 Nev. 712, 720, 100 P.3d 179, 186 (2004) (recognizing that "cases presenting live controversies at the time of their inception may become moot by the occurrence of subsequent events"). Petitioner timely responded to our show cause order, agreeing that the relief requested in the

petition appears moot. Accordingly, we conclude that this matter is moot and thus

ORDER the petition DISMISSED.
