ORDER DENYING PETITION

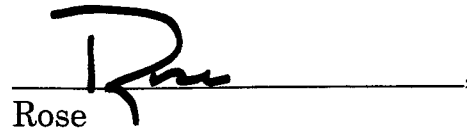

This original petition for a writ of mandamus or prohibition seeks a writ directing the district court to dismiss an amended information filed against petitioner on October 15, 2001, and prohibiting the State from prosecuting petitioner on the charges alleged therein.

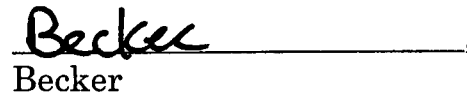

Having reviewed the petition, we conclude that petitioner has failed to demonstrate that this court's intervention by way of extraordinary relief is warranted at this time. In particular, we note that the instant petition does not contain copies of essential parts of the record

necessary to this court's complete understanding of the matters set forth in the petition.¹

Accordingly,
we ORDER the petition DENIED.

¹See NRAP 21(a). We note that such essential documentation from the record should include at a minimum: certified copies of the complaint, information, and amended information; transcripts of the preliminary hearing in the justice court and the proceedings in the district court relating to the habeas petition; the actual habeas petition filed below and the State's response thereto; and the district court's written order resolving the habeas petition.
