Mr. Falconi and Mr. Noble,

Your requests for media access and electronic coverage, each dated June 11, 2025, have been approved subject to the following limitations. The Commission approves (1) a single, manned high-definition camera; and (2) an unmanned high-definition camera that points at counsel tables and does not record sound. Zoom will not be utilized at the hearing. Live streaming or live broadcasting during the hearing is also prohibited.

It is your responsibility to determine who will participate at any given time or, in the alternative, how you will pool your respective coverage. This understanding should be reached outside the hearing room and before the commencement of the hearing, and must be done without imposing on the Commission or Commission staff. In the event you cannot agree on the pooling of coverage, Mr. Falconi (Our Nevada Judges) shall be the pool coordinator.

Thank you for covering the Commission's hearing!

Best regards,

Paul
