

Laborers Union Local 169 Endorsed Candidates for 2024 Primaries

by Union Admin | May 24, 2024 | LiUNA, Taking Action

The Primary Election is part of the election process where the number of candidates for a partisan race is narrowed down to one candidate for each party, or in a non-partisan race the number of candidates is narrowed down to two candidates. Not all races will have a primary election. Also, depending on where you live and your party registration, your primary election ballot may not have all the Union endorsed candidates. If you have any questions when you get your sample ballot, you can call the Union for more information.

Below are the Union Recommendations for the 2024 Primary Election
